WHAT IS THIS PRODUCT?

Type: Open-End Fund

Term: Indeterminate duration

Reference Currency: Euro

Objectives:

The Fund will adopt an investment policy that will aim to invest in debt instruments of corporate issuers (Bonds and Commercial Paper), with a minimum investment of 65% in Portuguese issuers.

Investment Policy: The Fund will invest at least 80% of its overall net value, directly or indirectly, in debt instruments, namely bonds and commercial paper, issued by private entities.

The investment may be made in fixed or floating-rate bonds, with different degrees of subordination, mortgage bonds, bonds resulting from the securitization of loans and other debt instruments of an equivalent nature denominated, directly or indirectly in euros, issued by private entities, as well as in commercial paper.

The Fund will invest mainly in issuers whose credit quality, at the time of the investment, has a rating equivalent to the levels of the rating agencies considered appropriate for investment (*Investment Grade*) or, if no rating is attributed, they must have equivalent credit risk from the perspective of the management company.

The Fund may not invest directly or indirectly in common shares.

The Fund may invest its capital in instruments denominated in currencies other than the euro, up to a maximum of 25% of its net value, and may exceed this limit, provided that it simultaneously hedges the foreign exchange risk associated with the excess by means of an appropriate instrument.

The Fund may use derivative financial techniques and instruments, namely on Eurozone public debt, for risk hedging purposes within legally established limits.

Up to 10% of its total net value, the Fund may invest in units of other UCIs compatible with the Fund's objective, including investment funds managed by IM Gestão de Ativos.

For necessary liquidity management purposes, the Fund may also be made up of cash, bank deposits, investments in the interbank money markets, treasury bills, deposit certificates and money market fund units, to the extent appropriate to cope with the normal turnover of redemption of units and the efficient management of the Fund, taking into account its investment policy.

The Fund's investment strategy follows an active management approach, not considering any benchmark parameters. Assets are selected from the list of issuers mentioned above, essentially considering their potential returns relative to their quality in terms of credit risk and the macroeconomic context in which they operate.

Benchmark: The Fund is not referenced to a money or capital market index.

Dealing frequency: The unit value of the Fund is calculated and published daily. unitholders may subscribe or redeem units on any business day in accordance with the Portuguese banking calendar. The unit value for subscription or redemption is the unit value that will be determined at the end of the day on which the request is submitted, so it is made at an unknown price. The minimum subscription amount for the Unit class P is 50,000 €.

Redemption notice period: 6 business days.

Distribution policy: Because it is a capitalization Fund, the income generated by the Fund's portfolio is reinvested in the Fund.

Depository: Banco Comercial Português, S.A., headquartered at Praça D. João I, 28, 4049-060 Porto, Tel.: +351 220 040 000
