IM Gestão de Ativos is authorized in Portugal and is subject to supervision of the Portuguese Securities Market Commission (CMVM). This fund, established in February 2nd, 2017 with undetermined duration, is authorized in Portugal and is subject to supervision by the CMVM, including this Key Information Document.

The information included in this document is accurate as of January 31st, 2024.

WHAT IS THIS PRODUCT?

Type: Open-Ended Equity Fund

Term: Indeterminate duration

Reference currency: Euro

Objectives:

The fund aims to provide Unitholders with capital appreciation in the medium and long-term by investing in companies listed on the Portuguese and Spanish regulated markets or, if listed on another regulated market, with relevant management or sources of revenues in these two markets, while preferring companies that adopt best practices in terms of Governance, Human Rights and Environment, whilst abstaining from any investment in companies that operate in controversial sectors, such as Tobacco, Gambling and Personal Firearms or whose main revenues are obtained in the aforementioned sectors.

Investment policy: The fund must have, on a permanent basis, a minimum of 85% of its assets directly or indirectly, invested in equity, namely company shares, bonds that grant rights to subscribe to shares, bonds convertible in shares, warrants or any other type of security that grants rights to subscribe to shares, that is convertible in shares or whose remuneration is linked to shares, and in derivative financial instruments.

The investment strategy follows an active management approach, not considering any benchmark parameters, nor favouring specific sectors or a fixed regional allocation.

The fund may invest up to 10% of its assets in units of collective investment undertakings with investment goals and policies in accordance with those of the Fund. The fund may be exposed to foreign exchange risk, up to a maximum of 20% of its net asset value.

In addition, the fund may also be made up of cash, bank deposits, investments in money markets, deposit certificates, and other money market instruments, debt securities and any type of bonds, to an extent that is appropriate to deal with the normal course of unit redemption and to efficiently manage the FUND.

The fund may use financial derivative instruments to cover risks and for additional exposure, without this resulting in an exposure to the underlying assets exceeding 100% of its net asset value.

Benchmark: The fund does not adopt any benchmark.

Dealing frequency: The unit value of the fund is calculated and published on a daily basis. Unitholders may subscribe or redeem units on any business day in accordance with the Portuguese banking calendar. The unit value for subscription or redemptions is the unit value that will be determined at the end of the day on which the request is submitted, so it is made at an unknown price. The minimum subscription amount is 250.000€.

Redemption notice period: 4 business days.

Distribution policy: Because it is a capitalisation fund, the income generated by the fund's portfolio is reinvested in the fund.

Depositary: Banco Comercial Português, S.A., headquartered at Praça D. João I, 28, 4049-060 Porto, Tel.: +351 220 040 000

To Unitholders may be provided, by the Management Company and the Distributors, on a durable medium or through a website, and regardless of the Fund's distribution method, the Prospectus, the annual and half-yearly reports and accounts, free of charge, on paper, to those who request it. These documents are available in Portuguese.

The Management Company shall disclose the daily value of the units in its office, to those who request it, and in the branches, on the websites and in the telephone banking system of the distributors. The value of the fund unit shall also be published daily in the Portuguese Securities Market Commission CMVM (www.cmvm.pt).

This disclosure shall always be made on the business day following the reference day for calculation of the unit value.

Intended retail investor:

The Fund is aimed at investors with a high-risk tolerance, that intend to accrue profits provided by the stock markets located in the Iberian Peninsula, valuing their capital on a medium to long term perspective. Unit class I is exclusively meant for professional investors and eligible counterparties.

What are the risks and what could I get in return?

Risk Indicator

The shaded area of the scale below shows the fund's risk rating.

The summary risk indicator provides guidance on the level of risk of this product compared to other products. It shows the probability of the product incurring in financial losses in the future due to market fluctuations. We have classified this product as 4 out of 7, which corresponds to a medium risk class. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

These scenarios are the provision of the fund's prospective performance based on past performance information and illustrate what annual product return might be. What you will get from this product depends on future market performance and cannot be accurately predicted. For the period prior to the establishment date of the fund, it was considered the performance of a composite index representative of the investment universe, net of all applicable costs and other administrative or operating costs. The stress scenario shows what you might get back in extreme market circumstances. The figures shown include all costs of the product itself and have no tax impacts, specifically in terms of income taxation.

Recommended holding period:		5 year(s)	
Example Investment:		10 000 EUR	
SCENARIOS		If you exit after 1 year	If you exit after 5 years ⁽¹⁾
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress Scenario	What you might get back after costs	7 260 EUR	6 920 EUR
	Average return each year	-27,44%	-7,10%
Unfavourable Scenario	What you might get back after costs	7 260 EUR	7 300 EUR
	Average return each year	-27,44%	-6,10%
Moderate Scenario	What you might get back after costs	10 360 EUR	10 390 EUR
	Average return each year	3,61%	0,76%
Favourable Scenario	What you might get back after costs	14 510 EUR	13 740 EUR
	Average return each year	45,08%	6,56%

(1) Recommended holding period.

Unfavourable, moderate and favourable scenarios based on minimum, average and maximum historical returns over 10 years of the Fund, an appropriate proxy (or a benchmark), for an investment with the same length of each represented periods.

The stress scenario is based on a statistical method (Cornish-Fisher expansion), which cannot be better than the unfavourable scenario.

These calculations are made in accordance with the Delegated Regulation (EU) 2021/2268, regarding technical criteria for the content and presentation of performance scenarios.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

The scenarios presented consider an investment amount of EUR 10,000 and assume a 0% return considering the scenario of exit after 1 year, and the same performance as the moderate scenario to the other holding period. The figures are estimates and may change in the future.

	If you exit after 1 year	If you exit after 5 year ⁽¹⁾
Total costs	157 EUR	762 EUR
Annual cost impact ⁽²⁾	-1,6%	-1,6%

(1) Recommended holding period.

(2) Illustrates the impact that total costs could have on your investment over the indicated holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 2,0 % before costs and 0,5 % after costs.

Composition of Costs

One-off costs	Entry costs	0%	Not applicable
	Exit costs	0%	Not applicable
Ongoing costs	Management fees and other administrative or operating costs	1,33%	Estimated costs that the fund will bear over the year based on actual costs charged to the fund over the last year.
	Transaction costs	0,24%	This is an annual estimate of the costs incurred when we buy and sell assets, calculated as the average cost over the last 3 years considering the bid or offer price of each asset's transaction and the mid-value at the time of the deal, at the market opening or the closing price of the previous day. The costs do not consider the brokerage commissions effectively charged.
Incidental costs	Performance fees	0%	Not applicable

WHAT HAPPENS IF THE FUND IS UNABLE TO PAY OUT?

This product is not covered by an investor compensation or guarantee scheme. Pursuant to article 12º of the Asset Management Framework (AMF), this product has asset autonomy thus it shall in no case be liable for the debts of the Unitholders, of the management company, depositary, distributors, or of other collective investment undertakings, but it is only liable for the debts of its assets.

HOW LONG SHOULD I HOLD THE FUND? CAN I TAKE MONEY OUT EARLY?

Recommended holding period: The minimum recommended investment period is 5 years. The units may be redeemed on any business day and their value for redemption purposes is the unit value that will be determined at the end of the day on which the request is submitted, so it is made at an unknown price redemption fee applied. The likelihood of capital losses decreases the longer the investment duration is.

Under exceptional circumstances, subscriptions or redemptions may be suspended by the Management Company, in the interest of the Unitholders, in accordance with item 6 of Chapter III under Part I of the Prospectus, provided immediately communicated to the CMVM or, by decision of the CMVM, in the interest of the Unitholders or in the public interest.
