The information included in this document is accurate as of January 31st, 2024.

WHAT IS THIS PRODUCT?

Type: Open-Ended Fund

Term: Indeterminate duration

Reference currency: Euro

Objectives

The fund aims to provide Unitholders with a medium-term profitability level compatible with the risk associated with investing in debt of Portuguese and Spanish issuers not involved in controversial activities or sectors such as Tobacco, Gambling and Personal Weapons and favouring issuers in the corresponding universe - adequately preventing any significant changes in the country risk - that adopt the best practices in the areas of Governance, Human Rights, and Environment or bonds whose purpose is to finance projects with a positive impact, both at the social and at the environmental level (Social Bonds and Green Bonds).

Investment policy: The fund will primarily invest its assets in debt securities and money market instruments from private and public issuers headquartered in Portugal and Spain, except in situations where the Fund management considers investment in lower risk assets to be appropriate, in which case it may invest in German public debt, debt from another Eurozone country with an equivalent risk, or hedge derivatives on public debt from other Eurozone countries.

The investment may be, directly or indirectly, in fixed rate bonds, floating rate bonds, covered bonds or bonds resulting from the securitization of claims and other debt instruments of an equivalent nature, with varying degrees of subordination, issued by public entities, private entities or guaranteed by a Sovereign State, by Supranational Entities or by international public bodies. It may also invest in money market instruments including commercial paper and deposits in credit institutions. The fund does not focus on specific sectors, nor does it follow an established regional allocation.

It may invest up to 10% of its net asset value in units of other collective investment undertaking in securities or equivalent instruments, with investment objectives and policies in conformity with those of the fund itself.

The fund may not invest directly or indirectly in common shares.

The fund may be exposed to currency risk, up to a maximum of 20% of its net asset value and may exceed this limit provided that it simultaneously hedges the foreign exchange risk associated with the excess by means of an appropriate instrument, pursuant to the terms of this Prospectus.

The fund may use financial derivative instruments to cover risks and for additional exposure, without this resulting in an exposure to the underlying assets exceeding 100% of its net asset value.

The investment strategy follows an active management approach, not considering any benchmark parameters, nor favouring specific sectors or a fixed regional allocation.

Benchmark: The Fund does not adopt any benchmark.

Dealing frequency: The unit value of the Fund is calculated and published on a daily basis. Unitholders may subscribe or redeem units on any business day in accordance with the Portuguese banking calendar. The unit value for subscription or redemptions is the unit value that will be determined at the end of the day on which the request is submitted, so it is made at an unknown price. The minimum subscription amount is 500.000€.

Redemption notice period: 4 business days.

Distribution policy: Because it is a capitalisation fund, the income generated by the fund's portfolio is reinvested in the fund.

Depository: Banco Comercial Português, S.A., headquartered at Praça D. João I, 28, 4049-060 Porto, Tel.: +(351) 220 040 000

To Unitholders may be provided, by the management company and the distributors, on a durable medium or through a website, and regardless of the Fund's distribution method, the Prospectus, the annual and half-yearly reports and accounts, free of charge, on paper, to those who request it. These documents are available in Portuguese.

The Management Company shall disclose the daily value of the units in its office, to those who request it, and in the branches, on the websites and in the telephone banking system of the distributors. The value of the fund unit shall also be published daily in the Portuguese Securities Market Commission CMVM (www.cmvm.pt).

This disclosure shall always be made on the business day following the reference day for calculation of the unit value.

Intended retail investor:

The fund is aimed for investors with moderate risk tolerance, with a view to potential investment appreciation higher than that of applications available in interbank money markets. Unit class I is exclusively meant for professional investors and eligible counterparties.

What are the risks and what could I get in return?

Risk Indicator

The shaded area of the scale below shows the Fund's risk rating.

The summary risk indicator provides guidance on the level of risk of this product compared to other products. It shows the probability of the product incurring in financial losses in the future due to market fluctuations. We have classified this product as 2 out of 7, which corresponds to a low-risk class.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

These scenarios are the provision of the fund's prospective performance based on past performance information and illustrate what annual product return might be. What you will get from this product depends on future market performance and cannot be accurately predicted. For the period prior to the establishment date of the fund, it was considered the performance of a composite index representative of the investment universe, net of all applicable costs and other administrative or operating costs. The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all costs of the product itself and have no tax impacts, specifically in terms of income taxation.

Recommended holding period:		18 months	
Example Investment:		10 000 EUR	
SCENARIOS		If you exit after 1 year	If you exit after 18 months ⁽¹⁾
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress Scenario	What you might get back after costs	8 740 EUR	8 790 EUR
	Average return each year	-12,62%	-8,24%
Unfavourable Scenario	What you might get back after costs	8 740 EUR	8 790 EUR
	Average return each year	-12,62%	-8,24%
Moderate Scenario	What you might get back after costs	10 080 EUR	10 070 EUR
	Average return each year	0,84%	0,46%
Favourable Scenario	What you might get back after costs	11 310 EUR	11 100 EUR
	Average return each year	13,10%	7,20%

(1) Recommended holding period.

Unfavourable, moderate and favourable scenarios based on minimum, average and maximum historical returns over 10 years of the Fund, an appropriate proxy (or a benchmark), for an investment with the same length of each represented periods.

The stress scenario is based on a statistical method (Cornish-Fisher expansion), which cannot be better than the unfavourable scenario.

These calculations are made in accordance with the Delegated Regulation (EU) 2021/2268, regarding technical criteria for the content and presentation of performance scenarios.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

The scenarios presented consider an investment amount of 10,000 EUR and assume a 0% return considering the scenario of exit after 1 year, and the same performance as the moderate scenario to the other holding period. The figures are estimates and may change in the future.

	If you exit after 1 year	If you exit after 18 months ⁽¹⁾
Total costs	134 EUR	200 EUR
Annual cost impact ⁽²⁾	-1,3%	-1,3%

(1) Recommended holding period.

(2) Illustrates the impact that total costs could have on your investment over the indicated holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 3,5 % before costs and 2,2 % after costs.

Composition of Costs

One-off costs	Entry costs	0%	Not applicable
	Exit costs	0%	Not applicable
Ongoing costs	Management fees and other administrative or operating costs	0,83%	Estimated costs that the fund will bear over the year based on actual costs charged to the fund over the last year.
	Transaction costs	0,51%	This is an annual estimate of the costs incurred when we buy and sell assets, calculated as the average cost over the last 3 years considering the bid or offer price of each asset's transaction and the mid-value at the time of the deal, at the market opening or the closing price of the previous day. The costs do not consider the brokerage commissions effectively charged.
Incidental costs	Performance fees	0%	Not applicable

WHAT HAPPENS IF THE FUND IS UNABLE TO PAY OUT?

This product is not covered by an investor compensation or guarantee scheme. Pursuant to article 12º of the Asset Management Framework (AMF), this product has asset autonomy thus it shall in no case be liable for the debts of the Unitholders, of the management company, depository, distributors, or of other collective investment undertakings, but it is only liable for the debts of its assets.

HOW LONG SHOULD I HOLD THE FUND? CAN I TAKE MONEY OUT EARLY?

Recommended holding period: The minimum recommended investment period is 18 months. The units may be redeemed on any business day and their value for redemption purposes is the unit value that will be determined at the end of the day on which the request is submitted, so it is made at an unknown price redemption fee applied. The likelihood of capital losses decreases the longer the investment duration is.

Under exceptional circumstances, subscriptions or redemptions may be suspended by the Management Company, in the interest of the Unitholders, in accordance with item 6 of Chapter III under Part I of the Prospectus, provided immediately communicated to the CMVM or, by decision of the CMVM, in the interest of the Unitholders or in the public interest.
